Tracking

We support the following options for 3rd party tracking:

Teaser

- Impression (1x1 pixel tracker; will be included as soon as the teaser is added to the page)
- Visibility (1x1 pixel tracker; will be included as soon as the teaser is 25% visible)
- Click (1x1 pixel tracker; with redirection to the target page /client landing page)
- Click (1x1 pixel tracker; without redirection for content ad formats)

Content

- Impression (1x1 pixel tracker, is integrated when the advertorial is fully displayed)
- Click (external linking: tracker and forwarding to an external destination, e.g. customer page)
- JS tracker as a special solution (only after consultation and prior feasibility check)

General information

- Tracking is not required for every image format. It is sufficient to deliver this only once per teaser.
